SUBDIVISION							
All Portion	J.H.Winwood & H.L.Chamberlin	1910	D.A.	Graff	2008		

TOWNSHIP 41 SOUTH, RANGE 17 WEST, SALT LAKE MERIDIAN, UTAH.

The survey was executed in accordance with the specifications set forth in the  $\underline{\text{Manual of Surveying Instructions}}$ , and the Special Instructions for  $\underline{\text{Group No. 1138}}$ , dated May 10, 2010.

At the request of the Shivwits Band of Paiutes, during the course of this survey, the northern boundary of the Shivwits Reservation was marked and posted with aluminum signs.

The directions of the lines were determined by references to true meridians, established by Global Positioning System (GPS) utilizing Real-Time Kinematic (RTK) techniques throughout the survey. The positional accuracy of this survey complies with the Standards for the Positional Accuracy of Cadastral Surveys When Using Global Navigation Satellite Systems (GNSS), dated April 1, 2010. Trimble model 5800 GPS receivers were used for field collection. Cadastral Automated Plat Drafting (CAPD) software was the primary software utilized for project calculations.

Preliminary to the resurvey, the lines of the prior surveys were retraced and a search was made for all corners and other calls of record. Identified corners were remonumented in their original positions. Lost corners were reestablished and remonumented at proportionate positions based on the official record. The retracement data was thoroughly verified and only the true line field notes are given herein.

Geodetic control was derived from GPS static observations, post processed by National Geodetic Survey, Online Positioning User Service (OPUS), utilizing Continuously Operating Reference Stations (CORS); DI1079 NVLM AMS WT FACILITY CORS ARP, AI8817 ECHO ECHO\_BRGN\_NV1999 CORS ARP, & AI8805 FRED FREDONIA CORS ARP.

The geographic position of the corner of sections 34 and 35 only, T. 41 S., R. 17 W., as determined by direct RTK methods from the National Geodetic Survey OPUS solution, is as follows:

Latitude: 37°10'05.262" N.,
Longitude: 113°44'03.119" W., N.A.D. 1983,

Network Accuracy = 0.200 meter at 95% confidence level.

The geographic position of the corner of sections 7, 12, 13, and 18, T. 41 S., Rs. 17 and 18 W., as determined by direct RTK methods from the National Geodetic Survey OPUS solution, is as follows:

Latitude: 37°13'34.408" N.,

Longitude: 113°48'22.989" W., N.A.D. 1983,

Network Accuracy = 0.200 meter at 95% confidence level.

CHAINS

Dependent Resurvey of a Portion of the South Boundary, Township 41 South, Range 17 West, Salt Lake Meridian, Utah.

Reestablishment of the Survey Executed by J.H. Winwood & H.L. Chamberlin in 1909

From the corner of sections 34 and 35 only, monumented with an iron post, 3 inches in diameter, firmly set, 12 inches above a mound of stones, 2 1/2 feet base, 11 inches high, with brass cap marked as described in the official record of the 1909 survey.

A mound of stones bears west of corner, 2 1/2 feet diameter, 3 feet high.

A steel fence post is located alongside iron post.

From this corner, the closing corner of sections 2 and 3 only, T. 42 S., R. 17 W., bears S. 89°59.0′ W., 1.055 chains distance, monumented with an iron post, 2 inches diameter, firmly set, projecting 10 inches above a mound of stone, 2 1/2 feet base, 1 1/2 feet high, with brass cap marked as described in the official record of the 1908 survey.

Corner is located on a moderate east-facing slope on rocky sandy ground.

N. 89°59.9' W., along the south boundary of the township.

38.972 Point for the 1/4 section corner of section 3 only, T. 42 S., R. 17 W.

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 28 inches in the ground, with aluminum cap marked:

T41S R17W

1/4 S3 T42S R17W 2011

Deposit Deep-1 magnet at base of aluminum post, and set a steel fence post alongside.

Corner is located on level ground in a valley extending north and south.

40.073 The 1/4 section corner of section 34 only, monumented with an iron post, 1 inch diameter, firmly set, projecting 6 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

Set a steel fence post alongside iron post.

CHAINS

Corner is located at the base of an east-facing slope.

N. 89°58.9' W., beginning new measurement.

38.926 The closing corner of sections 3 and 4 only, T.42 S., R. 17 W., monumented with an iron post, 2 inches in diameter, firmly set, 22 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

A mound of stone bears south of corner, 2 1/2 feet base, 2 feet high.

Set a steel fence post alongside aluminum post.

Corner is located on a steep east-facing rocky slope.

40.081 The corner of sections 33 and 34 only, monumented with an iron post, 3 inches in diameter, firmly set, projecting 6 inches above a mound of stones, 3 feet base, 24 inches high, with brass cap marked as described in the official record of the 1909 survey.

A mound of stone bears west of corner, 3 feet base, 3 feet high.

Set a steel fence post alongside iron post.

Corner is located on a steep east-facing rocky slope.

N. 89°59.1' W., between sections 33 and 4.

38.927 Point for the 1/4 section corner of section 4 only, T. 42 S., R. 17 W.

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 15 inches in the ground to bedrock, with aluminum cap marked:

T41S R17W

1/4 S4 T42S R17W 2011

Deposit Deep-1 magnet at base of aluminum post, and set a steel fence post alongside.

Corner is located at top of small bluff extending southeast and northwest among scattered juniper timber.

39.989 The 1/4 section corner of section 33 only, monumented with an iron post, 1 inch diameter, firmly set, projecting 6 inches above a mound of stones, 2 1/2 feet base, 8 inches high, with brass cap marked as described in the official record of the 1909 survey.

Set a steel fence post alongside iron post.

CHAINS

Corner is located at the base of a west-facing bluff among scattered juniper timber.

- N. 89°59.0' W., beginning new measurement.
- 39.020 The closing corner of sections 4 and 5 only, T.42 S., R. 17 W., monumented with an iron post, 2 inches in diameter, firmly set, 8 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

Set a steel fence post alongside iron post.

Corner is located on level open ground among sage brush.

40.038 The corner of sections 32 and 33 only, monumented with an iron post, 3 inches in diameter, firmly set, projecting 9 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

Set a steel fence post alongside iron post.

Corner is located on open level ground among low brush and grasses.

- S. 89°57.2' W., between sections 32 and 5.
- 38.896 Point for the 1/4 section corner of section 5 only, T. 42 S., R. 17 W.

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 24 inches in the ground, with aluminum cap marked:

T41S R17W

1/4 S5 T42S R17W 2011

Deposit Deep-1 magnet at base of aluminum post, and set a steel fence post alongside.

Corner is located on slight northwest-facing slope among desert grasses.

40.048 The 1/4 section corner of section 32 only, monumented with an iron post, 1 inch diameter, firmly set, projecting 11 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

Set a steel fence post alongside iron post.

Corner is located on open level ground among short grasses.

CHAINS

- S. 89°51.6' W., beginning new measurement.
- 38.762 The closing corner of sections 5 and 6 only, T.42 S., R. 17 W., monumented with an iron post, 2 inches in diameter, firmly set, 18 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

From which

- A pine, 8 inches diameter, dead and standing, bears S. 61°15′ W., 22 links distance, with healed blaze.
- A bifurcated juniper, 24 inches diameter, with scribed trunk cut out, bears S. 4°30′ E., 104 links distance.

Set a steel fence post alongside iron post.

Corner is located on a steep northwest-facing rocky slope among scattered juniper timber and rock outcrops.

40.041 The corner of sections 31 and 32 only, monumented with an iron post, 3 inches in diameter, firmly set, projecting 10 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

From which

- A pine, dead and standing, 10 inches diameter, with open blaze and visible scribe marks, bears N. 24° E., 59 links distance.
- A stump, 12 inches diameter, bears N. 62° W., 123 links distance.

There is no remaining evidence of the southeast bearing tree.

Set a steel fence post alongside iron post.

Corner is located on a steep northwest rocky slope among scattered juniper in rock outcrops.

- N. 89°59.4' W., between sections 31 and 6.
- 38.729 Point for the 1/4 section corner of section 6 only, T. 42 S., R. 17 W.

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 25 inches in the ground, with aluminum cap marked:

T41S R17W

1/4 S6 T42S R17W 2011

#### CHAINS

Deposit Deep-1 magnet at base of aluminum post, and set a steel fence post alongside.

Corner is located on open level ground in an area of past fire.

40.069 The 1/4 section corner of section 31 only, monumented with an iron post, 1 inch diameter, firmly set, projecting 8 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

There is no remaining evidence of the original bearing trees.

Raise mound of stone around iron post, 2 feet base to top of brass cap.

Set a steel fence post alongside iron post.

Corner is located on open southeast-facing rocky slope.

- S. 89°50.0' W., beginning new measurement.
- 38.588 The corner of Tps. 41 and 42 S., Rs. 17 and 18 W., monumented with an iron post, 3 inches diameter, firmly set, projecting 12 inches above ground, with brass cap marked as described in the official record of the 1909 survey.

There is no remaining evidence of the original bearing trees.

Set a steel fence post alongside iron post.

Corner is located on a northwest-facing slope in rocky sandy soil in an area of recent fire.

Dependent Resurvey of a Portion of the West Boundary, Township 41 South, Range 17 West, Salt Lake Meridian, Utah.

Reestablishment of the Survey Executed by J.H. Winwood & H.L. Chamberlin in 1910.

- N. 0°00.9' E., along the west boundary of the township.
- **40.060** The 1/4 section corner of sections 31 and 36, monumented with an iron post, 1 inch diameter, firmly set, projecting 12 inches above ground, with brass cap marked as described in the official record of the 1910 survey.

From which

- A burned pine, 13 inches diameter, dead and standing, bears N. 40°45′ E., 26 links distance, with burned out blaze.
- A pine stump, 10 inches diameter, 30 inch high, bears N. 43°45'

Dependent Resurvey of a Portion of the West Boundary,
Township 41 South, Range 17 West, Salt Lake Meridian, Utah.

#### CHAINS

W., 80 links distance, with burned out blaze.

Set a steel fence post alongside iron post.

Corner is located on east side of narrow ridge, extending north-northwest and south-southeast in a burned area.

N. 0°03.3' E., beginning new measurement.

40.057 The corner of sections 25, 30, 31 and 36, monumented with an iron post, 2 inches diameter, firmly set, projecting 20 inches above ground, in a scattered mound of stones, with brass cap marked as described in the official record of the 1910 survey.

There is no remaining evidence of the original bearing trees.

Raise mound of stones around iron post, 2 1/2 feet base to top.

Set a steel fence post alongside aluminum post.

Corner is located on level ground with sparse vegetation in an area of recent fire.

N. 0°04.8' E., between sections 25 and 30.

40.044 The 1/4 section corner of sections 30 and 25, monumented with an iron post, 1 inch diameter, firmly set, projecting 20 inches above ground, in a scattered mound of stone, with brass cap marked as described in the official record of the 1910 survey.

From which

- A burned pine, 8 inches diameter, dead and standing, bears S. 44° W., 75 links distance, with burned out blaze.
- A burned pine snag, 1/2 of the 12 inches diameter remaining, bears S. 21°30′ E., 43 links distance, with open blaze.

Raise mound of stones around iron post, 2 1/2 feet base, 1 1/2 feet high.

Set a steel fence post alongside iron post.

Corner is located on steep east-facing white rock slope among rock outcrops in an area of recent fire.

N. 0°00.3' E., beginning new measurement.

40.763 The corner of sections 19, 24, 25, and 30, monumented with an iron post, 3 inches diameter, firmly set, projecting 13 inches above ground, in a mound of stones, 2 feet base to top of brass cap marked as described in the official record of the 1910 survey. There is no remaining evidence of the original bearing trees.

#### CHAINS

A mound of stones bears west of corner, 2 1/2 feet base, 1 1/2 feet high.

Set a steel fence post alongside iron post.

Corner is located on east-facing slope in an area of recent fire.

- N. 0°04.6' E., between sections 19 and 24.
- 39.913 The 1/4 section corner of sections 19 and 24, monumented with an iron post, 1 inch diameter, firmly set, projecting 11 inches above ground, with brass cap marked as described in the official record of the 1910 survey.

There is no remaining evidence of the original bearing trees.

Set a steel fence post alongside iron post.

Corner is located on steep northeast-facing slope among large boulders in an area of recent fire.

- N. 0°00.9' E., beginning new measurement.
- 39.888 The corner of sections 13, 18, 19, and 24, monumented with an iron post, 3 inches diameter, firmly set, projecting 19 inches above ground, in a scattered mound of stones, with brass cap marked as described in the official record of the 1910 survey.

From which

- A juniper stump, 10 inches diameter, 5 inches high, bears N. 31° E., 81 links distance, with no scribe marks.
- A juniper, 12 inches diameter, bears N. 30° W., 156 links distance, with open blaze scribed 'T41S R18W S13BT'. (Record: N. 23°15' W.)
- A juniper stump, 18 inches diameter, 16 inches high, bears S. 10° E., 100 links distance, with open blaze and visible scribe marks. (Record: S. 98°35′ E.)

Raise mound of stones around iron post,  $1\ 1/2$  feet base,  $1\ 1/2$  feet high.

Set a steel fence post alongside iron post.

Corner is located in an barbed wire fence, extending east and west, on a slight east-facing slope among scattered juniper timber.

CHAINS

- N. 0°03.4' E., between sections 13 and 18.
- 39.984 The 1/4 section corner of sections 13 and 18, monumented with an iron post, 1 inch diameter, firmly set, projecting 16 inches above a mound of stones, 18 inches base, 8 inches high, with brass cap marked as described in the official record of the 1910 survey.

A mound of stones bears west of corner, 2 1/2 feet base, 1 1/2 feet high.

Rebuild mound of stones around iron post, 2 feet base to top.

Corner is located on slight east-facing slope among sagebrush.

- N.  $0^{\circ}03.2'$  W., beginning new measurement.
- 40.049 The corner of sections 7, 12, 13, and 18, monumented with an iron post, 3 inches diameter, firmly set, projecting 6 inches above ground, with brass cap marked as described in the official record of the 1910 survey.

From which bearing trees not of record,

- A juniper, 13 inches diameter, dead and standing, bears S. 11°45' E., 63 links distance, with healed blaze.
- A juniper, 11 inches diameter, dead and standing, bears S. 40° W., 92 links distance, with healed blaze.

A mound of stones bears west of corner, 3 feet base,  $1\ 1/2$  feet high, with 2 wood posts at center, 6 inches diameter,  $4\ 1/2$  feet high.

Set a steel fence post alongside iron post.

Corner is located on open level ground.

Dependent Resurvey of a Portion of the Subdivisional Lines, Township 41 South, Range 17 West, Salt Lake Meridian, Utah.

Reestablishment of the Survey Executed by J.H. Winwood and H.L. Chamberlin in 1910, and the Resurvey Executed by D.A. Graff in 2008.

From the corner of sections 26, 27, 34, and 35.

- N. 0°02.0' E., between sections 26 and 27.
- 12.497 Intersect the line between Angle Points 6 and 7, Tract 37, hereinafter described, not monumented.
- 18.851 Intersect the line between Angle Points 5 and 6, Tract 37,

CHAINS

hereinafter described, not monumented.

40.077 The 1/4 section corner of sections 26 and 27, monumented with an iron post, 1 inch diameter, firmly set, projecting 18 inches above ground, with brass cap marked as described in the official record of the 2008 resurvey.

From the corner of sections 14, 15, 22, and 23, monumented with an iron post, 2 inches diameter, firmly set, projecting 15 inches above ground, in a mound of stone, 2 1/2 feet base to top of brass cap marked as described in the official record of the 2008 resurvey.

A mound of stone is located west of corner, 2 1/2 feet diameter, 1 1/2 feet high.

Corner is located on level open rocky and sandy ground.

N. 0°17.3' W., between sections 14 and 15.

- **40.226** Point for the 1/4 section corner of sections 14 and 15, not monumented.
- 68.746 The witness corner for sections 14 and 15, monumented with an iron post, 1 inch diameter, firmly set, projecting 5 inches above a mound of stone, 3 feet base, 2 feet high, with brass cap marked as described in the official record of the 2008 resurvey.

Reestablishment of the Survey Executed by J.H. Winwood and H.L. Chamberlin in 1910.

From the corner of sections 33 and 34 only, on the south boundary of the township, hereinbefore described.

N. 0°06.6' W., between sections 33 and 34.

- 39.782 Top of cliff, falls south 20 feet, bears east and west.
- 40.082 The 1/4 section corner of sections 33 and 34, monumented with an iron post, 1 inch diameter, firmly set, projecting 16 inches above ground, with a brass cap marked as described in the official record of the 1910 survey.

A mound of stone, 2 feet base, 1 1/2 feet high, bears west of corner.

Set a steel fence post alongside iron post.

Corner is located on a rocky, south-facing slope.

Top of small cliff bears South, 20 feet distance, extending east and west.

CHAINS

- N. 0°03.2' W., beginning new measurement.
- 40.032 Point for the corner of sections 27, 28, 33, and 34, at proportionate distance; there is no remaining evidence of the original corner.

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 24 inches in the ground, in a mound of stones, 2 feet base to top of aluminum cap marked:

T41SR17W				
S28	S27			
S33	S34			
2010				

Deposit Deep-1 magnet at base of aluminum post and set a steel fence post alongside.

Corner is located on the flat bench of a road cut in the side of a steep south-facing slope. Road is 15 feet wide, extending east and west, and serves as an access road to a buried water line.

From the corner of sections 26, 27, 34 and 35, monumented with an iron post, 2 inches diameter, firmly set, projecting 6 inches above a mound of stone, 4 feet diameter base, 3 feet high, with brass cap marked as described in the official record of the 2008 resurvey.

A steel fence post is located alongside iron post.

Corner is located on open rocky ground, on the southeast side of a small knob.

- N. 89°58.8' W., between sections 27 and 34.
- 40.251 The 1/4 section corner of sections 27 and 34, monumented with an iron post, 1 inch diameter, firmly set, projecting 8 inches above ground, with lightly scratched brass cap not marked as described in the official record of the 1910 survey.

A mound of stones bears north of corner, 2 1/2 feet base, 1 1/2 feet high.

Remark cap:

Raise mound of stone around iron post, 1 1/2 feet base to top.

Set a steel fence post alongside iron post.

Dependent Resurvey of a Portion of the Subdivisional Lines, Township 41 South, Range 17 West, Salt Lake Meridian, Utah.

#### CHAINS

Corner is located on steep south-facing rocky slope above Santa Clara Bench Canal among large lava rock boulders.

- S. 89°57.9' W., beginning new measurement.
- 40.065 The corner of sections 27, 28, 33, and 34.
  - N. 0°06.1' W., between sections 27 and 28.
- 40.031 The 1/4 section corner of sections 27 and 28, monumented with an iron post, 1 inch diameter, firmly set, projecting 6 inches above ground, with brass cap marked as described in the official record of the 1910 survey.

A mound of stones bears west of corner, 2 1/2 feet base, 1 1/2 feet high.

Raise mound of stone around iron post, 1 1/2 feet base to top.

Set a steel fence post alongside iron post.

Corner is located on slight north-northeast-facing slope in heavy black brush.

- N. 0°02.7' W., beginning new measurement.
- 40.049 The corner of sections 21, 22, 27 and 28, monumented with an iron post, 2 inches diameter, firmly set, projecting 10 inches above ground, with brass cap marked as described in the official record of the 1910 survey.

Set a steel fence post alongside iron post.

Corner is located on level open sandy ground.

From the corner of sections 22, 23, 26 and 27, monumented with an iron post, 2 inches diameter, firmly set, projecting 3 inches above a mound of stone, 3 feet base, 13 inches high, with brass cap marked as described in the official record of the 2008 resurvey.

An imbedded mound of stone bears west of corner, 2 feet base, 1 1/2 feet high.

Corner is located on open sandy ground, on southwest-facing slope.

WEST, between sections 22 and 27.

40.414 The 1/4 section corner of sections 22 and 27, monumented with an iron post, 1 inch diameter, firmly set, projecting 14 inches above ground, with brass cap marked as described in the official record of the 1910 survey.

From which

- A juniper, 15 inches diameter, bears N. 41°15′ E., 88 links distance, with partially healed blaze and visible scribe marks.
- A bifurcated juniper, 8 inches diameter, on scribed trunk, bears S. 8° W., 17 links distance, with open blaze scribed '1/4 S27 BT'. (Record: S. 89°30' W., 18 links)

Raise mound of stones around iron post, 2 feet base to cap.

Set a steel fence post alongside iron post.

Corner is located on rolling sandy ground among scattered juniper timber.

- S. 89°58.5′ W., beginning new measurement.
- 40.034 The corner of sections 21, 22, 27, and 28.
  - N. 0°01.4' W., between sections 21 and 22.
- 40.014 The 1/4 section corner of sections 21 and 22, monumented with an iron post, 1 inch diameter, firmly set, projecting 6 inches above ground, with brass cap marked as described in the official record of the 1910 survey.

From which

A juniper, 23 inches diameter, bears S. 74.5° E., 149 links distance, with open blaze scribed '1/4 S22 BT'.

A mound of stones bears west of corner, 2 feet base, 1 foot high.

Set a steel fence post alongside iron post.

Corner is located on level open sandy ground.

- N. 0°00.2' W., beginning new measurement.
- 40.010 The corner of sections 15, 16, 21 and 22, monumented with an iron post, 2 inches diameter, firmly set, projecting 8 inches above ground, in a barbed wire fence extending east and west, with brass cap marked as described in the official record of the 1910 survey.

A mound of stones bears west of corner,  $2 \frac{1}{2}$  feet base,  $1 \frac{1}{2}$  feet high.

Corner is located on level open sandy ground at the base of a bowl opening to the west.

From the corner of sections 14, 15, 22 and 23.

s. 89°53.6' W., between sections 15 and 22.

CHAINS

40.526 The 1/4 section corner of sections 15 and 22, monumented with an iron post, 1 inch diameter, firmly set, projecting 20 inches above ground, with brass cap marked as described in the official record of the 1910 survey.

Raise mound of stones around iron post, 2 feet base to top.

Set a steel fence post alongside iron post.

Corner is located in a drainage, 3 feet wide, 2 feet deep, drains southerly.

- S. 89°58.2' W., beginning new measurement.
- 39.984 The corner of sections 15, 16, 21, and 22.
  - N. 0°03.8' W., between sections 15 and 16.
- 40.047 Point for the 1/4 section corner of sections 15 and 16, at proportionate distance. Point falls on inaccessible broken sandstone cliffs, not monumented.
- 56.967 The witness 1/4 section corner of sections 15 and 16, monumented with an iron post, 1 inch diameter, firmly set, in a mound of stone, 4 feet base to top of brass cap marked as described in the official record of the 2008 resurvey.

There is no evidence remaining of the original bearing tree.

Witness corner is located on the south edge of a steep cliff.

From the corner of sections 32 and 33, on the south boundary of the township, hereinbefore described.

- N. 0°04.6' W., between sections 32 and 33.
- 40.017 The 1/4 section corner of sections 32 and 33, monumented with an iron post, 1 inch diameter, firmly set, projecting 23 inches above a scattered mound of stones, with brass cap marked as described in the official record of the 1910 survey.

From which

- A juniper stump, 13 inches diameter, 7 inches high, bears N. 86° E., 39 links distance, with no blaze.
- A juniper, 11 inches diameter, bears S. 68°30′ W., 70 links distance, with open blaze scribed '1/4 S32 BT'.

Raise mound of stones around iron post, 2 1/2 feet base, 1 1/2 feet high.

#### CHAINS

Set a steel fence post alongside iron post.

Corner is located on a slight north-facing rocky slope among sandstone rock outcroppings and scattered juniper timber.

N. 0°03.5' W., beginning new measurement.

40.036 The corner of sections 28, 29, 32, and 33, monumented with an iron post, 2 inches diameter, firmly set, projecting 15 inches above ground, in a mound of stones, 2 1/2 feet base, 8 inches high, with brass cap marked as described in the official record of the 1910 survey.

A mound of stones, bears west of corner, 3 feet base,  $1\ 1/2$  feet high.

Rebuild mound of stones around iron post, 2 1/2 feet base to top.

Set a steel fence post alongside iron post.

Corner is located on narrow finger ridge, falls east among large sandstone boulders.

From the corner of sections 27, 28, 33, and 34.

S. 89°58.4' W., between sections 28 and 33.

39.995 True point for the 1/4 section corner of sections 28 and 33, at proportionate distance; there is no remaining evidence of the original corner. Point falls on Old Highway 91.

From this true point, the point selected for an off-line witness corner to the 1/4 section corner of sections 28 and 33, bears N.  $14^{\circ}31.1'$  E., 0.217 chains distance.

Set an aluminum post, 2 1/2 inches diameter, 30 inches long, 26 inches in the ground, in the northerly right-of-way fence line, with aluminum cap marked:

Deposit a Deep-1 magnet at base of aluminum post and set a steel fence post alongside.

The witness corner is located in the northerly right-of-way barbed wire fence line of Old Highway 91, extending N. 70 $^{\circ}$  W. and S. 70 $^{\circ}$  E.

The centerline of Old Highway 91, bears south, 45 links distance, asphalt surface is 50 links wide, extending N. 70° W. and S. 70°
